

Project World Mission 9:22

As 2020 came to an end, Christa and I had the opportunity to make a trip to Honduras. It was so good to be back, and to see all the work that has continued during the nine months we have been away due to travel restrictions. We cannot adequately express our gratitude for all who have been faithful to give so the work on the Tizate Mission Home and food distribution in multiple communities continues. As 2021 begins, we are excited and full of expectation. God's love continues to motivate us to live out the fullness of all He has planned for Project World-Mission 9:22.

Grace and Peace,

Marty

Tizate Feeding Center

The Feeding Center continues to serve a meal to children in the Tizate community once a week as restrictions allow. While on our trip we were able to be a part of serving 70 hot meals.

The children loved the fried chicken the best, but the rice and potato salad were given a thumbs up, too!!

Community Food Distribution

Food continues to be a priority for many in the communities we serve. Our trip allowed for over 270 bags to be distributed to the Tizate Community and three Tolupan Indian Communities in Montana De La Flor (Mountain of the Flower).

Tizate Mission Home

We are so excited about the progress made on the mission home. The interior ceilings and walls (stucco) are almost finished and plumbing for the showers is being installed. We hope to be ready for ceramic tile for the bathrooms soon. We look forward to opening the Mission Home to teams this year! #almostclose
